Welcome to the guide on how to sign up for hosting. Signing up for hosting with Stallion Hosting is a really simple procedure and this step by step guide will take you through the process.

Throughout this guide I will be using screen shots from the Stallion Hosting website as well as a yellow arrow to direct you, simply follow these steps and you will soon be signed up and be the proud new owner of website hosting account.

If you get stuck at any stage or if you have any questions before you want to sign up then please feel free to contact us at any time and we will gladly assist you. Our contact details are listed on the last page of this guide.

Step 1:

Click on the link below to go to the Stallion Hosting home page, or simply type the address in your internet browser.

<http://www.StallionHosting.com>

Step 2:

The Stallion Hosting Home Page should look like this, click on the Web Hosting tab, situated on the left hand side of the page, which I have highlighted with a yellow arrow, you will now be able to compare the hosting plans we offer.

Step 3:

This is what the Web Hosting page looks like page and it is at this page where you will be able to compare each website hosting package, and the features associated with each hosting package.

The best selling web hosting package is the **Mare Package** as this package offers the best value for money.

<input type="button" value="order now"/>	<input type="button" value="order now"/> 	<input type="button" value="order now"/>

Step 5:

This will take you to a page like the one below; this is where you start to set up your new hosting account.

Shopping Cart 

You are here: Shopping Cart

Product Configuration

The product/service you have chosen requires a domain name so please enter your domain name selection from below.

- I want Stallion Hosting to register a new domain for me.  **Option 1**
- I want to transfer my domain to Stallion Hosting  **Option 2**
- I will update my nameservers on an existing domain Or I will register a new domain.  **Option 3**

www. .co.za

** Free Domain Registration applies to the following extensions only: .co.za,*

The hosting account needs a domain in order to be set up, as you can see below you can either choose one of the following options with regard to a domain choice:

Option 1: You can order a new domain and Stallion Hosting will then order the domain for you and set up the hosting on this new domain. Remember if you choose to pay a 6 or 12 months upfront for your hosting, then you receive a free .co.za domain name. If you plan to do this, then simply enter the new domain name you would like to order, and if its available, then click continue to proceed.

Option 2: If you already own a domain at a previous hosting company, or if you own domain names that are parked, then Stallion Hosting can transfer your domain and you can then set up the hosting on a domain name that you already own. If you choose this option, then simply select option 2 and enter the domain name in the space provided.

Option 3: Option 3 is if you have a domain name that you would rather update, in this case you would insert the domain name in the space provided and then it would be up to you to update the domain name servers.

Note: Most new customers will choose Option 1 as they would require a domain name.

Once you have selected the best option for your requirements and filled in the domain name then please **Click to Continue**.

Step 6:

Next you will be directed to a page with a description of your hosting, and this is where you have the option to choose your payment terms. By clicking on the drop down menu, you will be able to view the options available, which are, monthly, quarterly, semi annually, annually and every two years.

Depending on the payment term you selected, the larger the upfront payment, the better monthly rate you will receive, and remember, for the semi annually, annually and every two year payment options a free .co.za domain name is included for one year as a bonus 😊

Select your preferred option and then selected **Update Cart**.
